Thailand-based pharmaceutical company ABLE Medical has signed a collaboration agreement with Denmark-based 1Point Pharma to bring affordable treatment options to the Nordic region and selected countries in Europe.

ABLE Medical is an independent pharmaceutical company that possesses the expertise and capabilities to produce a diverse range of pharmaceutical products, primarily sterile injections. ABLE Medical's extensive product portfolio covers a wide spectrum of therapeutic areas, addressing the healthcare needs of patients across various medical disciplines – from neurology to infectious diseases.

1Point Pharma, provides seamless access to the Nordic pharmaceutical markets through a straightforward and cost-effective business model. This model includes the management of supply chain, pricing, quality control, business development, and sales, offering a proven and efficient approach for market entry.

Export Manager at ABLE Medical, Norapat Siripornpitak, says: “We are grateful for the opportunity provided by 1Point Pharma. We believe their market experience and business model will greatly support our entry into the EU market. We look forward to a fruitful collaboration”

Morten Carl Madsen, the Managing Director of 1Point Pharma, says “We are very enthusiastic about the collaboration with ABLE Medical, a prominent manufacturer of sterile injectables with significant growth prospects. Our business strategy prioritizes supply chain reliability and ensures product availability by closely monitoring market dynamics. Transparency is a core value for us, as we maintain open communication with our partners and regulatory authorities.”
