

Nanjing Pharmacare and 1Point Pharma sign agreement to deliver pharmaceuticals to the Nordics

China-based pharmaceutical company Nanjing Pharmacare has signed a collaboration agreement with Denmark-based 1Point Pharma to bring affordable treatment across the Nordic region and selected countries in Europe.

Nanjing Pharmacare is known for its expertise in developing and supplying high-quality formulations for global markets. The partnership reflects the company's commitment to expanding internationally and ensuring access to safe, reliable medicines through robust manufacturing and regulatory standards.

1Point Pharma, provides seamless access to the Nordic pharmaceutical markets through a straightforward and cost-effective business model. This model includes the management of supply chain, pricing, quality control, business development, and sales, offering a proven and efficient approach for market entry.

John Yan 闫静, Formulation Sales Director at Nanjing Pharmacare, says:

“We are delighted to have reached a collaboration agreement with 1 Point for the Nordic market. We are confident that by leveraging the resource strengths of both parties, we will be able to deliver more high-quality pharmaceutical products to people in the Nordic region. Our mission is striving to expand access to qualified pharmaceuticals from China for global patients.”

Morten Carl Madsen, Managing Director at 1Point Pharma, adds:

“We are enthusiastic about our collaboration with Nanjing Pharmacare, a forward-thinking partner with a strong product pipeline and quality commitment. Our shared values around supply chain integrity, regulatory transparency, and patient access make this partnership a natural fit.”

This agreement strengthens both companies' ability to respond to growing healthcare demands in Europe with high-quality and accessible pharmaceutical products.
